Program 094 - Administration

Program Objectives:

The objectives of program 94 of the Accountability and Disclosure Commission essentially advance the majority of the Agency's goals. The objectives of this program are accomplished by completing a series of operational activities. In essence, program 94 is the primary administrative process of the agency. There are three categories within the program. The categories are campaign finance, (CF) conflicts of interest, (CI) and lobbying activities (LA).

The main objective of (CF) is to improve the disclosure process which ultimately fosters open fair elections.

The main objective of (CI) is to improve the disclosure process, which ultimately fosters public accountability.

The Main objective of (LA) is to improve the legislative process.

Performance Measures:

In the past, the performance measures of this agency were primarily based upon activity, work output, or volume of reports filed. This is not a particularly useful measure since the number of reports which must be filed changes significantly from year to year. Factors which affect the number of filings required include whether it is, or is not, an election year; whether an election year is a gubernatorial election year; and the number of public offices in which an incumbent is seeking reelection. Thus, a simple comparison from year to year of the number of reports filed does not in any way indicate the level of compliance with the Act. A better measure of performance would be to compare the number of reports filed on a timely basis to the number of reports filed late and compute the percent of variance. Even this measure is more a measure of the performance of the filers than of the agency. However, it may provide anecdotal information on the effectiveness of the Commission's instructional materials and seminars.

Program 095 - Campaign Finance Limitation Act Cash Fund

Program Objectives:

The primary objective of the program 95, The Campaign Finance Limitations Act, is to increase the number of qualified candidates for public office in the State of Nebraska by using public funds to assist in the financing of certain Campaigns.

Financial Data:

	Actual FY02	Approp FY03	Request FY04	Recom FY04	Request FY05	Recom FY05
General Fund	0	0	0	0	0	0
Cash Fund	112,065	557,970	597,188	597,188	677,338	677,338

Revolving Fund	0	0	0	0	0	0

Total	112,065	557,970	597,188	597,188	677,338	677,338

Performance Measures:

The development of performance measures in this program is problematic. The number of candidates participating in the program (either as abiding candidates or non-abiding candidates) is expected to vary significantly depending upon whether it is the year of an election or an off-election year. It also depends upon whether it is a gubernatorial election year (in which candidates for Attorney General, Auditor of Public Accounts, Secretary of State and State Treasurer also seek office). The amount of public funds distributed is not a useful measure since no public funds are distributed in races in which all candidates abide by voluntary spending limits.
